

How to determine the status of a SAD subject to a ‘Suspense Procedure’

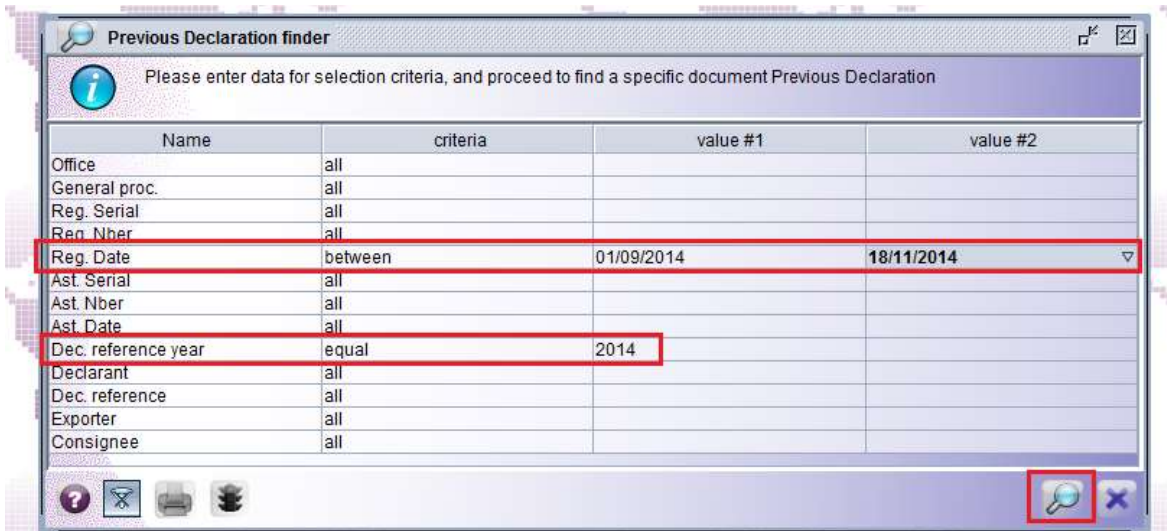

The following ‘Functional Note’ provides registered users of the ASYCUDA World (AW) system with the information necessary to enable them to determine the status (i.e the write-off) of a SAD subject to a suspense procedure (e.g. the entry of goods in a bonded warehouse, the entry of raw products into an excise warehouse, temporary imports, temporary exports, etc.)

This is done as follows:

1. Once logged into the system, go in to ASYCUDA → Goods Clearance → Declaration → Previous Declaration → Previous Declaration
2. Right click and choose **Find**

3. From the Finder, use any criteria to find the assessed SADs you are looking for (refer to the ”How to use the AW Finder Facility” functional note

4. Click on the **Search Icon**

5. The list of SADs displayed in the Finder is restricted to the Declarant code linked to the user who logged into the AW system
